Thanks, Rich - now that it's on the website, I'll share it with my counterpart at HQ to share with the staffer who asked for it. Thanks again!

Jennie

Jennie,

Here's the SAP we used in January. As you can see, we will have a revised version shortly and then most likely may have another plan for Round 2. But, I wanted to get you something by today.

Rich

OK. Here is what we started with when we began our sampling on Jan 23. I will have the revised plan (which includes the simultaneous sampling from the wellhead and the tap) to you by the end of the day. If Rupert and Kelley want another revised SAP to address the most recent changes in the analysis then I will also work on that. Just let me know.

Thanks,

Suddha Graves

I would like Rupert and Kelley to weigh in on that question. For now, get me what you have been using. (if you can get the Ft. Meade comments addressed, that's fine.) I need something today....that represents our current plan.
thanks

I had forwarded it to our chemist/lab coordinator to address the comments from Ft. Meade. I just checked with him and we should be able to get you the revised plan today. Also in regards to the proposed analytical changes for the March sampling...do you want another revised SAP to reflect the changes?

Thanks,

Suddha Graves

Suddha,
I have been asked to post the final SAP on the EPA web page. I am not absolutely certain that I have the latest. So.
could you send me a PDF of the latest?
thanks.
